William “Bill” Mazur is a 25-year law enforcement veteran who retired in 2017 from the Atlantic City (N.J.) Police Department at the rank of deputy chief. Bill holds a bachelor’s degree in criminal justice from Stockton University and a master’s degree in human resources training and development from the Police Graduate Studies Program at Seton Hall University.

Bill is a graduate of the 256th session of the FBI National Academy. He also serves as a master instructor with the FBINAA’s Comprehensive Officer Resilience Train-the-Trainer Program™ and is a member of the FBINAA’s Officer Safety and Wellness Committee.

As a strategic account manager and public safety liaison with Acadia Healthcare’s Treatment Placement Specialists® team, Bill provides specialized treatment guidance for public safety personnel, first responders, and families who may find themselves in a personal crisis.
Who We Are

Acadia Healthcare is a leading provider of premier behavioral healthcare services with an international network of facilities throughout the United States and the United Kingdom. With the highest standards of clinical excellence and a wealth of behavioral health expertise, Acadia offers unparalleled clinical support to individuals, families, and organizations. As the preferred provider of behavioral health services for the FBI National Academy Associates (FBINAA), Acadia supports individuals who are struggling with concerns such as posttraumatic stress (PTS), substance use, anxiety, depression, and co-occurring conditions.

What We Do

Acadia Healthcare’s Treatment Placement Specialists® (TPS) exist to help behavioral health professionals locate the most appropriate care for clients who have complex needs. With access to a spectrum of ethical and integrated treatment programs both inside and outside of Acadia’s formal network of facilities, the TPS team is uniquely positioned to provide higher-level treatment options for individuals and families whose lives have been disrupted by a variety of mental health and substance use concerns.

Working With Your Public Safety Liaison

If you or one of your fellow officers or agents is in need, guidance is one phone call away. Acadia’s public safety liaison is available to you and will stay with you through the entire treatment cycle. Our public safety liaison can connect you with a Treatment Placement Specialist® in your area who is trained to triage law enforcement and public safety cases. In collaboration with the individual in need and their family, if requested, our team will find the most appropriate treatment centers at the proper level of care to best meet the unique financial, clinical, and spiritual requirements of each person. We are with you from the initial phone call all the way to continuing care.

Services Provided To Law Enforcement

Because Acadia’s public safety liaison and Treatment Placement Specialists® team are part of one of the largest behavioral health providers in the U.S., we have the resources to provide clinically excellent, tailored care. At no cost, our team helps police leadership and officers navigate the treatment landscape with efficiency and confidentiality, offering informed guidance and options that reflect the individualized needs of each officer. Our full services include:

- Informed, confidential treatment guidance
- Streamlined admissions & communication during treatment
- Continuing care & return-to-work planning
- Utilization & case management reviews
- AMA/ACA discharge prevention & notification
- Peer support & wellness program development
- Guest speaking & educational opportunities
- Organizational wellness self-assessments

The Importance Of Confidentiality

Confidentiality is important in any case of mental health concern or substance use, and this is particularly true for those involving the law enforcement community. Our team of Treatment Placement Specialists® treats client confidentiality with the highest priority and ensures that the placement process is 100% HIPAA-compliant as we navigate the treatment landscape.

In collaboration with the FBINAA, Officer Safety and Wellness Committee, and other organizational resources, the Treatment Placement Specialists® team can provide training to your members on topics including officer/agent resiliency, suicide awareness, peer support, and more. Please contact our public safety liaison for further details and to arrange training.

The partnership we share with Acadia Healthcare has been amazing! We have worked together to change lives AND to save lives. Their passion is incredible and their commitment is unwavering. Acadia Healthcare is protecting the first responders who are protecting America!

— Paul Butler, keynote speaker and master of ceremonies, FBI National Academy Associates
